M15 trade-in to M39S, upgrade kit.

CENTROID M39S CNC control configured for direct replacement for all M15 CNC controls.
 Complete kit ready to install, the existing cables plug directly into the new M39 cabinet for most M15's.
 Includes a Windows 7 Tablet PC, Large hard drive, Large LCD display, new jog pendant, keyboard and mouse.

Pre-configured M39 M15 upgrade kit

Upgrade kit utilizes CENTROID's new Allin1DC CNC control board, running CNC11 on Windows 7 OS Tablet PC. Simplified installation: pre-installed Win7OS, CNC11 software with proper PLC program, control configuration settings and g-code programs, system is ready to run as shipped.

Bottom of new M39S M-15 upgrade cabinet showing M15 compatible plugs pre-wired ready to accept existing M15 cables: Servo motors, DC power, Lube Pump, Encoder inputs, and Control cable.
 Just hang the box, plug it in, turn it on, and start running parts.
 (Note: Installer will direct wire to cabinet for M15-3,5,6 models.)

All standard features of the Allin1DC and CNC11 are included. Highlights Include:

- ✓ Familiar CENTROID CNC software w/ New std. features: 6 WCS, Subs&Macs, Larger std. file size, Better 3D surfacing.
- ✓ USB connections for easy file transfer
- ✓ Easy networking
- ✓ Remote support connection
- ✓ Reliable, made in USA servo drive

Optional equipment:

- 4th axis motor connection
- Tablet PC/pendant arm mount*
- Vectric Engraving software**
- Spindle inverter
- Custom PLC program
- Additional I/O
- DP4,DP7,TT-1,TT2

* Some additional light fabrication may be required by installer
